

ACCESA

Accesa - Company Profile

Company Description:

Accesa envisions a world where technology lies at the core of every business and we've made it our mission to accelerate the digital transformation of businesses through an agile and innovative approach based on long-term partnerships.

Partnering with our clients, we act as a full IT services provider, system integrator and Agile development company along the entire delivery process lifecycle: Design - Build - Operate. This way, we enable our clients to create new digital products, accelerate release cycles, orchestrate systems, scale internal capabilities while driving performance for applications, platforms and infrastructure

Empowered by an agile mindset, a broad range of technical and functional know-how and entrepreneurial spirit, our specialists can help you get a more competitive business now than ever before.

Accesa was founded in 2004, has 700+ specialists and offices in Munich, Zurich, Cluj-Napoca and Oradea.
